AKHILA KASU

Hyderabad, Telangana 500028| akhilayadavkasu@gmail.com|+91 7997884602 | https://www.linkedin.com/in/akhila-kasu

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science graduate with hands-on experience in full-stack development, specializing in front-end technologies such as HTML, CSS, JavaScript, and React.js, along with a solid foundation in back-end development and MySQL databases. Experienced in designing and developing responsive, user-friendly web applications, including a healthcare service website with features such as appointment booking, interactive components, and mobile-friendly layouts. Strong problem-solving and collaboration skills with the ability to adapt quickly to new tools and frameworks. Currently pursuing a Master of Computer Applications (MCA) and eager to contribute as a full-stack developer in dynamic, growth-driven teams.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Core Java, Python, R**| Database Management:** MySQL

Data Visualization Tools: Tableau, Retool, Matplotlib, Seaborn, Plotly, Power BI

Data Engineering & Analysis: NumPy, Pandas, Regular Expressions, SQL, Data Cleaning & Transformation, Data Visualization (Matplotlib, PyPlot, Pandas Plotting) **| Web Technologies:** HTML, CSS, JavaScript, React.js

Machine Learning & Deep Learning: TensorFlow, Neural Networks (ANN, CNN, RNN, LSTMs), GANs, Optimization Algorithms (SGD, Adam, RMSProp), Regression & Clustering **| Soft Skills:** Research Collaboration, Communication, Presentation, Problem-Solving

PROJECTS

Healthcare Service Website | Front-End Development

- Designed and developed a multi-page healthcare website with sections for Home, About, Services, Doctors, Appointments, and Contact.
- Implemented an appointment booking form with validation and local storage.
- Added interactive sliders and carousels to enhance user engagement.
- Delivered a clean, responsive UI/UX for both desktop and mobile users.

Data Engineering with Python (Course Project) | Python, Pandas, Matplotlib, MySQL

- Collected, cleaned, and transformed structured/unstructured datasets using Pandas and Regular Expressions.
- Designed SQL database schema and integrated it with Python for efficient data storage.
- Created visualizations with Matplotlib/PyPlot to communicate insights.
- Explored basic predictive modeling with regression and clustering.

Deep Learning Model Implementation (Course Project) | TensorFlow, Keras

- Implemented ANN, CNN, and RNN models for image classification and sequence data.
- Applied optimization algorithms (SGD, Adam, RMSProp) to improve training efficiency.
- Experimented with dropout, weight decay, and batch normalization for generalization.

EDUCATION

St. Ann's College for Women — Hyderabad
Master of Computer Applications (MCA) | **GPA: 9/10** — 2024 – Present

JSpiders — Hyderabad
Full stack development training — 2023

Sarojini Naidu Vanitha Maha Vidyalaya — Hyderabad
Bachelor of Science (Computer Science) | **GPA: 8.6/10** — 2019 – 2022

CERTIFICATIONS

Python 101 for Data Science, Data Analysis with Python, Data Visualization with Python | **IBM** — September 2025
Deep Learning with TensorFlow and Machine Learning with Python | **IBM** — September 2025

ADDITIONAL INFORMATION

- **Continuous Learning:** Expanding skills in full-stack development, data engineering, and deep learning.
- **Teamwork & Communication:** Strong collaborator, able to explain technical concepts clearly.
- **Problem-Solving & Research:** Applied operations research, data analysis, and software engineering principles in projects.
- **Technical Adaptability:** Quick to learn new tools, frameworks, and emerging technologies.
- **Interests:** Full-stack development, AI-driven applications, healthcare technology.
